

# Plant Care Specialist

## **Job Overview:**

Provide specialized maintenance to our client's annuals, perennials, and roses. Employees must show ability to be responsible, reliable, detail oriented, and have a strong focus on customer service.

## **Job Requirements:**

- Professionally represent the company on private properties.
- Be able to work independently and responsibly.
- Provide necessary reports to manager on status of plants.
- Work around changing weather conditions.
- Work safely and respectfully with our maintenance crews.
- Assure job site cleanliness.
- Be adaptable to homeowner requests and changes.
- Track and care for plant material, equipment, tools and supplies.
- Pay attention to detail.
- Maintain a clean driving record.

## **Job Details:**

Provide care for all annuals, perennials and roses. This includes but is not limited to:

- Assist in planting seasonal pots
- Covering/uncovering roses and hydrangea seasonally
- Watering, Deadheading, Pruning and Fertilizing as needed throughout the season
- Frequently report on the status of the plants
- Perform site inspections and communicate enhancement suggestions to clients.
- Ability to obtain pesticide license

Experience in plant care is preferred
